Mission Trip Medical and Evacuation Insurance

DON'T ASSUME YOUR INSURANCE WILL GO WITH YOU WHEN YOU TRAVEL!

Ask your insurance company the following FOUR questions:

1. Does this insurance policy cover emergency expenses abroad such as returning me to the United States for treatment if I become seriously ill?
2. Does the insurance company require pre-authorizations or second opinions before emergency treatment can begin?
3. Does the insurance company guarantee medical payments abroad?
4. Will the insurance company pay foreign hospitals and foreign doctors directly?

What if you do not have coverage under your health insurance plan for foreign care and/or medical evacuation?

- All participants with the FFP are required to have coverage for overseas medical care and evacuation.
- Coverage can be purchase from companies like IMGGlobal (www.IMGGlobal.com) that can be purchased online for mission teams and missionaries.
- Copies of the coverage needs to be provided to your group leader and carried along with you on the trip.
